

Aurora Health Care South Emergency Medical Services

Affiliation Requirements

Licensure Items

1. Maintain all state-required certifications for licensure which include American Heart Association Basic Life Support for Healthcare Providers (BLS) or equivalent (for all licensure levels) and American Heart Association Advanced Cardiac Life Support (ACLS) or equivalent for all EMT-Intermediates (ALS) and EMT-Paramedics.
2. Maintain a State of Wisconsin EMS license for the level of care the candidate is providing as described in Wisconsin Administrative Code DHS 110 and the Medical Director's protocols.
3. Maintain an e-Licensing account with the State of Wisconsin as outlined in Wisconsin Administrative Code DHS 110.

Continuing Education

4. Read all assigned online learning packet and complete the written exam with at least 80% correct to pass¹. This is done as needed and participants will receive a minimum of two hours medical director approved continuing education credit that can be used toward Wisconsin EMS license renewal².
5. Attend one of the scheduled in-person trainings held throughout Walworth, Kenosha, and Racine counties each quarter³. This is done once each quarter and participants will receive a minimum of two hours of medical director approved continuing education credit that can be used toward Wisconsin EMS license renewal⁴.
 - a. Should the EMR/EMT be unable to complete this requirement, with early notification to the EMS office we will identify options to complete this requirement.
 - b. Outside training and higher education (e.g. Paramedic or nursing school) can be used to meet these training hours under certain circumstances. The EMR/EMT must contact the EMS office prior to the close of the quarter for medical director approval.

¹ If the EMR/EMT is affiliated with two or more squads, this requirement only needs to be completed once, but at the EMR/EMT's highest licensure level.

² This training can also be used to satisfy NREMT recertification education requirements.

³ Must attend in-person three of the four quarters to meet this requirement.

⁴ This training can also be used to satisfy NREMT recertification education requirements.

EMS Continuing Professional Development Website

6. Create an account on the <https://cpd.aurora.org/> website.

Audits and Reviews

7. In the event a Quality Assurance issue develops, any EMR/EMT involved MUST make themselves available to meet with the Medical Director and/or his designee.

Maintenance of Affiliation

8. The EMR/EMT must keep on file with the EMS office a current phone number and email address where they may be contacted.
9. It is the responsibility of each EMR/EMT to notify the EMS office of:
 - a. Any change in licensure status or eligibility for licensure; such as upgrade, downgrade, loss of driving privileges, or criminal conviction.
 - b. If the EMR/EMT is going on an extended leave of absence (i.e. greater than 30 days).
