

Guidelines for Promoting Accredited Continuing Education

A draft copy of all advertisements **must be approved by the Advocate Aurora Interprofessional Continuing Education (IPCE) Team before printing or distribution.** This ensures that all materials are compliant with the requirements of Joint Accreditation (JA) and Advocate Aurora Health.

Visual Look of Promotional Materials

Pieces must remain educational, not promotional. Brochures may not include excessive information regarding the facilities and/or social activities to the point that it exceeds the educational information provided. The visual look and supporting images should be medical in nature, not promotional. For example, do not use photos of golfers or skiers, even if there is a social component of the program that features these activities. These materials must also comply with Advocate Aurora brand standards.
